BACHELOR OF SCIENCE IN COMPUTER SCIENCE

HONG KONG METROPOLITAN UNIVERSITY

Graduated in Aug 2026

WORK EXPERIENCE

Part-time Student Trainee (Computing) | School of Nursing and Health Sciences, HKMU

Oct 2025 – Aug 2026

- Assisted in daily operation of the VR laboratory, supporting research, teaching and event activities.
- Conducted structured hands-on evaluation and comparison of AR platforms to support the school's platform selection.

KEY PROJECTS

CHANMAN'S SOUNDBOARD | Desktop Soundboard App — GITHUB

Role: Sole Developer.

- Built a desktop soundboard application with Electron (Node.js), HTML/CSS and Tailwind CSS, packaged as a portable Windows executable via electron-builder.
- Implemented multi-device synchronized audio output, global hotkeys, waveform-based audio trimming (WaveSurfer.js), and Traditional Chinese/English i18n.
- Scoped features from personal use; directed AI-assisted development, integrated and debugged generated modules (IPC, audio routing); shipped v1.0 with GitHub release in 3 days.

BIT (Graduation Project) | NFT Trading Platform — GITHUB

Role: Programmer.

- Built a peer-to-peer NFT trading platform with Python Flask (asset listing/search) and client-side JavaScript for MetaMask wallet interaction.
- Developed and deployed ERC-721/1155 smart contracts in Solidity, using IPFS for immutable metadata storage.
- Set up a private Ethereum test chain to overcome slow public testnet speeds, enabling reliable demos and testing.
